Oklahoma Grain Sorghum Forecast Up from Last Month

OKLAHOMA:

Production prospects are up from October for sorghum, down for cotton and unchanged for grain corn, soybeans, and peanuts, according to the Oklahoma Field Office of USDA-NASS.

Production of **corn for grain** is forecast at 41.6 million bushels, the same as last month but 24 percent above 2009. An average yield of 130 bushels is expected from 320,000 harvested acres.

Production of **grain sorghum** is now forecast at 12.42 million bushels, up 2 percent from last month and 1 percent above 2009. An average yield of 54 bushels is expected from 230,000 harvested acres.

Soybean production is forecast at 10.58 million bushels, the same as last month but 12 percent below last year. An average yield of 23 bushels is expected from 460,000 harvested acres.

Cotton production is now forecast at 445,000 bales, down 10,000 bales from last month but 39 percent above 2009. An average yield of 806 pounds is expected from 265,000 harvested acres.

Peanut production is forecast at 64.0 million pounds, the same as last month but 49 percent above last year. An average yield of 3,200 pounds is expected from 20,000 harvested acres.

UNITED STATES:

Corn production is forecast at 12.5 billion bushels, down 1 percent from last month and 4 percent lower than 2009. Yields are expected to average 154.3 bushels per acre, down 1.5 bushels from October, and 10.4 bushels below last year's record of 164.7 bushels per acre.

Production of **grain sorghum** is forecast at 338 million bushels, down 12 percent from 2009. Yield is expected to average 72.5 bushels per acre from 4.66 million harvested acres.

Soybean production is forecast at a record high 3.38 billion bushels, up slightly from last year. Yields are expected to average 43.9 bushels per acre, down 0.1 bushel from last year's record high yield.

All cotton production is forecast at 18.4 million bales, up 51 percent from last year. Yield is expected to average 821 pounds per harvested acre.

Peanut production is forecast at 3.96 billion pounds, up 7 percent from last year's crop. Yields are expected to average 3,142 pounds per acre from 1.26 million harvested acres down.
